VAL-MATIC PLUG VALVES

Did you know that *Val-Matic's Plug Valves* available in both standard and 100% port? Excellent choices when you have more than just water flowing through your system such as when slurries, grit or solids are present. Its eccentric action allows the plug to rotate and lift out of its seated position minimizing rubbing or scraping. Features such as a heavy-duty fully rubber encapsulated plug, welded nickel seat, grit-seals and V-Type packing provide reliable operation. *Val-Matic Plug Valves* are built using advanced manufacturing technologies and are certified to rigorous industry standards to assure reliable performance. Fusion Bonded Epoxy, Rubber Lining or Glass Lining coatings are available when necessary. For more information on Val-Matic Plug Valves visit www.valmatic.com.
